4. *Number of Patients treated.*—The number of beds available for in-patients was 4,144 as against 4,066 in the previous year. The total number of new in-patients treated in the various hospitals and dispensaries was 97,040 compared to 96,320 during the year 1944. There was a fall in the number of out-patients treated during the year, the number being 69,86,763 as against 76,21,556 in the previous year.

The total number of parturition cases was 42,495 as against 40,675 in the year 1944. Of these, 20,813 (16,904) cases were conducted inside institutions.

5. *Midwives.*—The number of midwives working during the year was 473 (459).

6. *Finance.*—The expenditure on the medical services was Rs. 29,36,483 (32,99,391). The contributions of the local bodies amounted to Rs. 3,84,309 as against Rs. 3,55,300 during the previous year. The hospital receipts amounted to Rs. 2,37,000 as against Rs. 1,72,600 in the previous year.

7. *Donations.*—It is very gratifying to note that philanthropic people donated a sum of Rs. 2,49,000 during the year for the several items of medical relief works.

Government Order No. G. 3838-46—P. H. 24-42-43, dated 24th September 1943, sanctioning the proposal of the Director of Public Health, for extending the anti-malaria scheme in the Irwin Canal Area sanctioned in Government Order No. G. 6977-83—P. H. 34-41-4, dated 3rd January 1942, for a period of one year.

2. Government Order No. M. 4876-7—P. H. 62-44-3, dated 29th November 1944, according sanction to the continuance of the scheme referred to above on the existing basis till the end of the year 1944, pending consideration of revised proposals.

3. Government Order No. M. 4396-405—P. H. 166-44-2, dated 14th November 1946, sanctioning the proposal of the Director of Public Health for the continuance of the scheme of anti-malaria measures in an extended area comprising of 314 villages.

4. Letter No. 290 of 46-47, dated 7—13th August 1946, from the Director of Public Health, submitting proposals for the establishment of additional Health Units to cover all the villages in the irrigated area under Irwin Canal.

5. Further correspondence ending with letter No. 360 of 46-47, dated 19th—20 August 1946, from the same officer on the subject.

ORDER No. M. 6177-86—P. H. 71-45-4, DATED BANGALORE, THE 9TH DECEMBER 1946.

The condition of health in the villages under the Irwin Canal was the subject of discussion in the Legislative Council in December 1945. It was considered a matter of paramount importance to preserve the health of the people in this area by opening more Health Units to cover the remaining villages in the Channel area in addition to those already sanctioned in the Government Orders read above. With this object in view, the Director of Public Health was requested to examine and formulate proposals for protecting all the villages in the Channel area from the scourge of malaria. He has submitted proposals for opening six Health Units at Kirgaval, Dugganahalli, Malavalli, Agasanapura, Chandgal and Kalkunte to cover an area of about 180 additional villages with a Divisional Office under the supervision of a Health Probationer at an estimated cost of Rs. 1,23,700 inclusive of the cost of the existing dispensary at Malvalli amounting to Rs. 3,000 proposed to be taken over to the control of the Public Health Department.

As the pay and allowances proposed in certain cases differ from those drawn by similar class of officials in other Units in the Irwin Canal area, it is desirable that a uniform scale of pay and allowance should be allowed to the staff in these six Units similar to those in the existing Units in the area. With this modification, the extra cost will come to about Rs. 1,13,401 (Rupees one lakh thirteen thousand four hundred and one) only both recurring and non-recurring. Deducting the cost of the existing dispensary to be taken over under the control of the Public Health Department, the net expenditure will be Rs. 1,10,401 as shown in the appended statement.

Government are pleased to sanction the proposal of the Director of Public Health for the formation of Health Units in the places referred to above with the above modification at a net cost of Rs. 1,10,401 as shown in the statement appended to this order for a period of three years in the first instance, the extra expenditure being met by an additional grant as no provision has been made for the purpose in the current year's budget and necessary provision being made for the purpose in the budget for future years.
